Adderall is a Schedule II controlled substance in the U.S. and many other countries. This means:

- It requires a valid prescription for legal use.
- It carries risks of dependence, abuse, tolerance, and side effects.
- You cannot legally buy Adderall online no prescription from legitimate U.S. pharmacies.

💡 **Important Note:** While some international websites claim to sell Adderall without a prescription, these platforms may be unsafe, illegal, or counterfeit.

Step 2: Consult a Licensed Online Doctor

To buy Adderall online with a prescription, you must first consult a certified healthcare provider who can evaluate your medical history and determine whether the medication is appropriate for your condition.

Modern telehealth platforms allow patients to:

- Complete an online medical questionnaire.
- Speak with a licensed physician via video or chat.
- Receive a digital prescription if clinically appropriate.
